Our Mission:

November 2012

Through Christ's love, help people reach their God-given potential

ASOSAP'S MEN IN BACK

We realized that the ASOSAP women get a lot of press time, so this time we will feature our guys who work quietly, efficiently, and cheerfully "behind the scenes".

CARLOS

7 years with us as Construction Supervisor in Implementation

"I have enjoyed working with ASOSAP because I have gained a lot of experience in many new things. What I have enjoyed the most is showing the international teams how to do the construction projects

because many of them do not work in construction in their own countries. I am thankful to God and to the international people for giving us the opportunity to use our abilities to serve our Pokomchi people."

SEBASTIAN

2 1/2 years with us as Construction Supervisor in Planning

"Working with ASOSAP, I have learned many new things. I really like what I do in ASOSAP because I am able to be with the families in the communities, instead of enclosed in 4 walls in front of machines. In the communities, I learn from the families and they learn a little from me. I am also thankful to God and the donors for allowing me to work with my wife, helping her in any way I can to do her job better. Finally, I have a big emotional advantage being able to spend more time with my wife and daughter. I thank God for giving me this opportunity to work with ASOSAP."

ALVARO

1 year with us as Driver, Security, Maintenance, Assistant in Construction

"What I like best about ASOSAP is that it promotes the spiritual growth of its employees. This motivates me to continue to grow in my faith. Also, I and my fellow workers have good communication and therefore we don't have misunderstandings. This way, we will remain a good team and will be a good example for the people in the communities and for those who visit us. Thank you for having confidence in our ASOSAP team and in me personally."

Mountain Milestones

How do our Men like Working with Teams?

CARLOS: "I like it because through them hanging out with them in the evenings in I learn a little English. But afterwards, I we don't speak each other's language, really like working with them at the experience together."

"I learn a lot about many things. Also, I like base camp. They learn a little Spanish, and don't remember the English! Even though we manage to communicate with gestures. I homes of the families because we share our

SEBASTIAN: "I like it because I share in From their different perspectives, each construction work. We share with them and so we get to know them better. I thank God that they come with a great desire to help and with great love in their hearts, that they live among us and serve our Pokomchi people along side us in the communities."

their experiences and learn from them. brings ideas and suggestions for doing the in working, playing, sleeping, and eating,

ALVARO: "It has been a great and very positive experience to see how they demonstrate love, affection, and understanding to our Pokomchi people. Working with them, I have gained good examples and experiences of how they always treat people well no matter where they come from. I have really enjoyed working with the teams."

A Word from the "Boss"

GLENDA: "I apologize that they wrote so few words. I tell you, they worked VERY hard to pull those words out of their heads and put them down on paper!

The thing is, Bill taught them -'WORKS NOT WORDS'. This is the reason they know WORK but have very few WORDS!"

Look at that! They even help

"How can a young man keep his way Your (God's) word. I seek You with all my from Your commands" Psalm 119:9,10
